**Dear Colleague**

I refer to the public consultation on the evaluation and the review of the regulatory framework for electronic communications networks and services. Norway welcomes the Commissions' initiative to review the regulatory framework and appreciate this opportunity to convey our thoughts and priorities for a revised framework. I believe a sound and future-proof regulatory framework is fundamental for the development of a true Digital Single Market in Europe.

Please find enclosed the Norwegian Ministry of Transport and Communications' thoughts and priorities for a revised framework.

Yours sincerely,
