Retrofitting the modern building heritage: a new way towards sustainability.

Nei, se her
@nebstavanger!

@neweuropeanbauhaus

Maybe demolishing a well-functioning building in the New European Bauhaus testbed area wasn't a good idea after all?

#sustainable? #esthetic #together

"God kommunikasjon bidrar til å skape tillit. Noen ganger kan kommunikasjon handle om å skape forståelse eller øke kunnskap. Andre ganger handler det om å endre holdninger eller atferd. Uansett formål, ønsker vi at målgruppene våre skal ha tillit til oss, og oppleve informasjonen vår som relevant, enhetlig og forståelig."

NEB Facility: R&I Component

Nye muligheter! Horisont Europa 2025-2027
New European Bauhaus Facility
360 millioner euro

Destination 1: Connecting the green transformation, social inclusion and local democracy

- Reinforcing and rebuilding people's **trust** in democratic institutions, sense of **ownership and belonging**
- **Positive narratives and visions** for a common European future
- **Involving citizens** (including vulnerable groups and minorities) in **innovative participatory governance models** to support the design of inclusive and accessible buildings and public spaces

Destination 2: Circular and regenerative approaches for the built environment

- **Re-use and re-purposing** of materials, building elements, buildings and public spaces
- Turning the built environment into a **carbon sink**
- Applying the concept of **sufficiency** to buildings and architecture to make them **functional, efficient, resilient and effective**, and increase people's **well-being**
- **Regenerative** designs and construction processes
- **User-centred** solutions, connected with **local cultural identity and cultural heritage**

Destination 3: Innovative funding and new business models for the transformation of neighbourhoods

- Better understanding the **market dynamics and how to shift demand and supply**
- **New principles, policies, and frameworks** to encourage and enable new practices in the built environment
- Producing scientific evidence for **new business models and innovative funding**
- Understanding and promoting the **social and economic value of beauty**
- Understanding the **new skills and competences** for a circular, regenerative and inclusive built environment
