

Working Together for a Green, Competitive and Inclusive Europe

EUR 117.6 million has been allocated to a number of cooperation programmes with Lithuania through the EEA and Norway Grants (2014-2021). These programmes are designed to strengthen cooperation between Norway and Lithuania and contribute to social and economic development in Lithuania.

Cooperation in the area of justice and home affairs will be continued, with a focus on the correctional services and the fight against organised crime. Combating work-related crime in an EU context is also important. In the field of research and innovation, a regional Baltic research hub will be established. Other focus areas are child health, civil society, and the environment, including disaster prevention and preparedness.

Ten Norwegian agencies are involved as partners in implementing the programmes, and are providing assistance with the recruitment of Norwegian project partners.

ABOUT THE EEA AND NORWAY GRANTS

The EEA and Norway Grants are linked to the EEA Agreement. Under the EEA Agreement, Iceland, Liechtenstein and Norway are part of the EU's internal market. The EEA Agreement sets out the common goal of working together to reduce social and economic disparities in Europe and strengthen cooperation between donor and beneficiary countries. Iceland, Liechtenstein and Norway have allocated EUR 2.8 billion to 15 EU countries for this purpose over a period of seven years. Norway provides just under 98 % of this amount.

The EEA and Norway Grants are an important tool in the Norwegian Government's active European policy, which seeks to promote a green, competitive and inclusive Europe.

FUNDING TO LITHUANIA UNDER THE EEA AND NORWAY GRANTS

Since becoming a member of the EU in 2004, Lithuania has received funding under the EEA and Norway Grants as follows:
